

Second Journal proof on Article LZ15969

June 25, 2019

1. Second Proof: Please check and confirm the edit made in the sentence “With nuclear targets, deeply inelastic lepton scattering ...”
Response: We are fine with adding “European Muon Collaboration (EMC) effect” at the end of the sentence.
2. Second Proof: Please carefully confirm that all first-proof corrections were addressed and that changes were made accurately.
Response: Everything is well implemented.
3. Second Proof: Please confirm the paper is now ready to be published in its current form.
Response: Everything looks fine except reference 41. Right click on the link somehow does not open the link right away. We confirm that the link <https://tel.archives-ouvertes.fr/tel-01218756/document> is right.
